

Application to Transfer the Registration of a Food Premises

Food Act 1984

Information for Food Businesses – Food Act Registration or Notification

The Food Act 1984 (the Act) regulates the sale of food for human consumption. From 1 July 2010 a new food premises classification system applies to all food premises operating in Victoria.

If your business sells food you must either register with, or notify, the council in which the premises is located. This information sheet explains whether you will need to **register** or **notify**.

There are four classes of food premises - class 1, class 2, class 3 and class 4. The classification system means that regulatory requirements are better matched to the level of food safety risk associated with the food handling activities at different types of premises.

Classes 1, 2 and 3 premises **must register** with the council

Class 1 has the highest and class 4 the lowest level of legal requirements. In summary, the classes are:

- Class 1 - hospitals, child care centres and aged care services which serve high risk food.
- Class 2 - other premises that handle high risk, unpackaged food.
- Class 3 - premises that handle unpackaged low risk food or high risk pre-packaged food, and warehouses and distributors

Class 4 premises **must notify** the council

You will be a class 4 premises and only need to notify Council if your only food handling activities are as follows:

- The sale of shelf stable pre-packaged low risk food such as confectionery, crisps, frozen ice cream, milk, bottled drinks – for example, newsagents, pharmacies, video stores and some milk bars.
- The sale of packaged alcohol - for example, bottle shops
- The sale of uncut fruit and vegetables - for example, farmers markets, green grocers and wholesalers
- Wine tasting (which can include serving low risk food or cheese)
- The sale of packaged cakes (excluding cream cakes)
- The supply of low risk food, including cut fruit, at sessional kindergarten or child care
- Simple sausage sizzles at stalls, where the sausages are cooked and served immediately. This means sausages, sauce, onions and bread. (This does not include hamburgers or other high risk foods)

For a full list of class 4 activities go to <http://www.health.vic.gov.au/foodsafety>

Please tick one of the following

1. The food handling activities carried out at my food premises involve activities that are listed above under the class 1, 2 or 3 section
2. The only food handling activities at my premises are as described above under the class 4 section

If you ticked box 1, you are required to register with Council

If you ticked box 2, you are required to notify Council

Please contact Council to discuss the process for registering/notifying your premises using the application to register/notify a food premises form, and to discuss your correct classification and whether you require a food safety program and/or a food safety supervisor.

If you operate a **supported residential service** you will need to inform the council whether the majority of your residents are aged persons Council will ask if you handle or intend to handle high risk foods. This means foods that require temperature control (refrigeration or heating). For example, meats, chicken, fish, smallgoods, custard, cream, salads, cooked pasta, eggs and sandwiches.
