

# Draft Playground Concept Plan Templeton Reserve, Wantirna

## A better playspace for your neighbourhood!

As part of Council's annual playground renewal project, the existing playground at Templeton Reserve will be replaced with a new and exciting playspace that has a focus on natural play, ecofriendly materials and being accessible for all.

## Have Your Say

Council values the community's thoughts. If you would like to provide comment on this Draft Concept Plan please contact us via the range of methods noted on the page.

Council will take all comments received on board and adjust and improve the proposed playspace design where possible and as budget allows. Council will aim to deliver the new playspace at Templeton Reserve by Mid 2018.

### 1. Timber and steel combination play unit

Designed for juniors and seniors with the following possible items:

- Slides
- Shop counter
- Climbing walls
- Monkey bars
- Rope bridge
- Balance chain (re-used from existing playground)
- Spiral climbers (re-used from existing playground)
- Climbing net structure

### 2. Timber balance beams

Recycled timber balance beams.

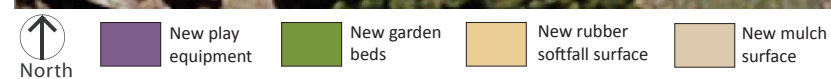

## Why Natural Play?

Playing outdoors is beneficial for us all, as it helps us connect with nature and allows us to learn, explore and imagine.

Play is significant in the development of children's physical, social and creative skills.

Natural play spaces, such as the proposed redevelopment for your local reserve, provide people of all ages with the experience of both traditional play equipment and natural elements.

### 3. Double swing

New double swing with junior seat.

### 4. Basket swing

New basket swing with softfall rubber ground surface.

### 5. Dual rocker

New dual rocker.

### 6. Single Rocker

New single rocker.

### 7. Garden Beds

Garden beds surrounding the playspace to provide opportunities for tactile and sensory natural play and to create habitat for native birds and butterflies.

### 8. Access path and seating

A new concrete access path to the playground and bench seating.
