

16 December 2019

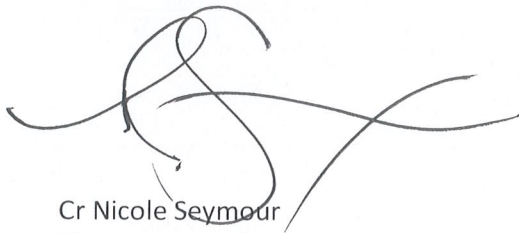

Notice of Motion No. 100

Climate Change

I hereby give notice that it is my intention to move at the Ordinary Meeting of Council on 16 December 2019 the following motion.

That Council:

Following its Notice of Motion adopted at the 28 October 2019 Ordinary Meeting recognising that we are in a state of serious climate and environment change, reaffirms the seriousness, urgency and significance of the matter ahead of the report being brought to the January 2020 Council meeting, and for the purpose of clarity of expectations with respect to the preparation of Council's Climate Response Plan notes that by urgency there is a commitment to immediate action considering a 10 year delivery timeframe 2020 - 2030. Further, that Council's Climate Response Plan is to identify, assess, measure and mitigate the strategic risks of climate change considering a whole of organisation approach:
