Help make Knox more age-friendly

Have your say in Knox City Council's Age-Friendly City Survey. We are seeking feedback from Knox residents aged 55+ and carers of older people.

Our survey is based on the World Health Organization's Age-Friendly Cities and Communities Framework, which looks at eight important areas of everyday life, such as transport, housing, outdoor spaces, social participation and access to services.

Your responses will provide a valuable snapshot of how our community is performing across these areas, including what is working well and where improvements could be made.

Your feedback will help identify priorities for Council's planning and action.

The survey takes around 10 minutes to complete, depending on how much detail you'd like to provide.

Survey open from 1 September - 18 October 2026
